

Fractions

one pizza

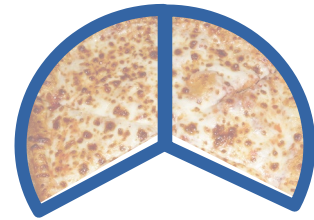

two pizzas

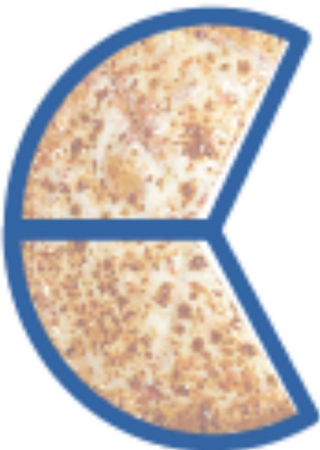

one pizza cut into
3 EQUAL slices

That means, the
one whole was cut
into THIRDS

This is LESS than
one pizza. There
are only two
pieces that are
each a third.

$$\frac{2}{3}$$

there are two
slices, each a third
of a pizza

the pizza was cut
into equal thirds

numerator

This tells you how many equal pieces are
there

denominator

Look here first! This tells you how
many equal pieces the pizza was cut into
